

**Independence. Employment. Community.  
For Unique People.**

**ADULT SUPPORT SERVICES  
FOR INDIVIDUALS WITH  
DEVELOPMENTAL DISABILITIES**

**Employment • Supported Living • Habilitation**

RVI, Inc. is a private, non-profit organization located in the heart of Ottawa County, Ohio. Riverview Industries, Inc., began in 1973 under the auspices of the Ottawa County Board of Developmental Disabilities with the purpose of providing work opportunities for people with disabilities. Although those work opportunities are still the core of our purpose today, the organization has grown to provide additional opportunities in Habilitation and Supported Living. For more than 35 years, RVI has been providing the best care with the most options available for people with disabilities in Ottawa County, beginning with basic employment and growing into non-work and even in-home care. RVI has grown from one of Ottawa County's FIRST providers to one of the BEST.

**Specialized services include:**

- Lunch Program
- Nursing
- Behavior Support
- Skill Development Coordination

**Riverview Industries, Inc.**

*The purpose of RVI is to provide a meaningful work experience and quality of life for the benefit of adults with developmental disabilities.*

*"Our daughter uses RVI (SOS) provider. She thoroughly loves the time spent with her, whether it's one-on-one or a group function. We hope she will get to enjoy this relationship for many years to come."*

- Carol Amyx

**SUPPORT SERVICES**

**Employment**

Because of a vast network of business associates around Ottawa County, RVI, Inc. is able to offer a variety of options to those seeking employment. Our spacious work-shop in Oak Harbor provides hands-on work such as packaging, sorting, mailing, and paper shredding. For those employees interested in working outside the workshop, we have jobs available in our Contracted Services department, doing everything from office cleaning to floor care to lawn maintenance. We also offer job placement assistance and job coaching for the individual looking for community employees.

**Habilitation**

We offer non-work programming through our Habilitation department. Our RISE department (RVI's Individualized Success Enhancement) helps with reading or computer skills, discusses current events, and provides training in workplace skills development. The SHINE room (Successful Habilitation for Individual Needs Enhancement) and the CADET (Creative Adults Developing Exceptional Talents) serves as an Adult Day service, offering a safe, engaging atmosphere for those not interested or not appropriate for work activities. For them, we offer games, activities, crafts, song and dance, and more.

Through the collaboration of many talented artists, original art drawings and hand-painted canvas become beautiful art. Visiting artists and studio staff assist in optimizing the creativity and imagination of the artists.

*A studio where creativity and imagination come together to form unique art designed by adults with developmental dis-Abilities.*

**Supported Living**

In July 2008, RVI, Inc. launched its newest service segment, SOS Residential (Sense of Self). This department offers Supported Living services to people with disabilities, ranging from hands-on direct care services in the home to companionship to at-home skills development. SOS is proud to call itself the premier provider of such services in Ottawa County, with a reputation for quality and compassionate care second to none.
