True Electronic Recycling Program

Think Green

~

Think Smart!

BUSINESS ~ RESIDENTIAL ~ GOVERNMENT

Are you tired of using valuable space to store old technology equipment?

Did you know that **most RECYCLED PC's** end up in a **LANDFILL**?

Now you have a great option to do the right thing. Instead of storing or disposing of your old equipment, you can have it recycled—***the right way***—by an EPA recognized National R2 RIOS Certified Recycler.

RVI is the Ottawa County collection point for technology equipment ready for recycling!

PRICING

1 Unit can include up to five pieces of the following equipment:

CPU (Computer/Tower), Keyboard, LCD Monitor, Mouse, Hard Drive, Cables, Server (Tower/Rack Unit), Laptop, Sync Cables, Mini Hubs, Docking Station, Routers, Access Points, Switches, Hubs, Modems, Misc. Cards & Cables
